

Careers News

Welcome back!

Wednesday 3 February 2021

It's never too early to start thinking about career ideas, researching your options, developing a career action plan, or simply having a discussion with a member of the Pathways Team.

If you are in Year 12, it is essential that you discuss your options with the key people in your life as soon as possible.

Have no idea what you would like to do when you leave school? No stress! Don't delay seeing your Career Adviser- now is the perfect time. Not sure what to say? Don't worry- it's their job to guide you and open up possibilities you may not have considered before.

As a starting point, if you are interested in studying at university or TAFE in the future, it's important you attend open days and plan out your course interests early.

Seeing a member of the Pathways Team early in the year is important to ensure you can get organised early and to be able to start making links with local employers.

Please read the Careers News when it is published to ensure you keep up to date with upcoming career events and key dates. Happy reading!

Interested in pursuing an apprenticeship or traineeship?

Even though you have just started the schooling year, your planning should start now. Australian Apprenticeship Pathways have developed an excellent four-step guide to assist you to start planning - www.aapathways.com.au

Read through Step One and take the work type explorer quiz, download the AusAppPathways app to your phone, and complete practice aptitude quizzes to ascertain the level of literacy and numeracy skills you will need for different occupations.

You can also do the following during the year to prepare for an apprenticeship:

Meet with a member of the Pathways Team to start planning your professional trade career

Contact industry leaders and associations in your fields of interest to ask questions.

Contact local apprenticeship centres and/or group training organisations to ask their advice on what makes a competitive apprenticeship applicant. Use the following website to locate organisations in your local area www.australianapprenticeships.gov.au

Work hard in your English and Mathematics classes and VET/technology/science subjects if relevant. With advances in technology occurring across all apprenticeship fields, it will be crucial that you can read and interpret complex information and instructions and adapt to changes in technology during your apprenticeship and once qualified.

Bookmark websites for industries you are interested in to keep up to date with changes to industry technology, skills shortages, and events. For example:
