Health and Medical Sciences

The University of Melbourne

At The University of Melbourne, medical study requires students to obtain an undergraduate qualification, upon completion they are able to select a graduate specialisation. The Faculty of Medicine, Dentistry and Health Sciences (MDHS) has developed a 'Graduate Programs in Health' guide to help prospective students understand their undergraduate to graduate study options at <http://bit.ly/2w0G1LQ>

Would your daughter like to study in the UK or the US?

Want to know what it takes to get into top US colleges or UK universities? Crimson Education has developed a video covering topics such as academic scores, financing an overseas degree, application processes, and more. You can watch the video at <http://bit.ly/2IL4UOc>

Does your daughter love physics?

If she is planning on enrolling in a Bachelor of Science, there are loads of reasons why majoring in physics is a good idea. And despite the maths-meets-science elective often overlooked for those with clearer post-grad pathways, employers are crying out for a physics majors maths, analytics, problem-solving and computer skills. At this link, Cassie Steel from Careers With STEM explores four unexpected jobs a Bachelor of Science majoring in Physics can lead to – Astrophysicist, Geophysicist, Materials Scientist, and Meteorologist, <http://bit.ly/2U8N1yc>
